

TITLE PAGE

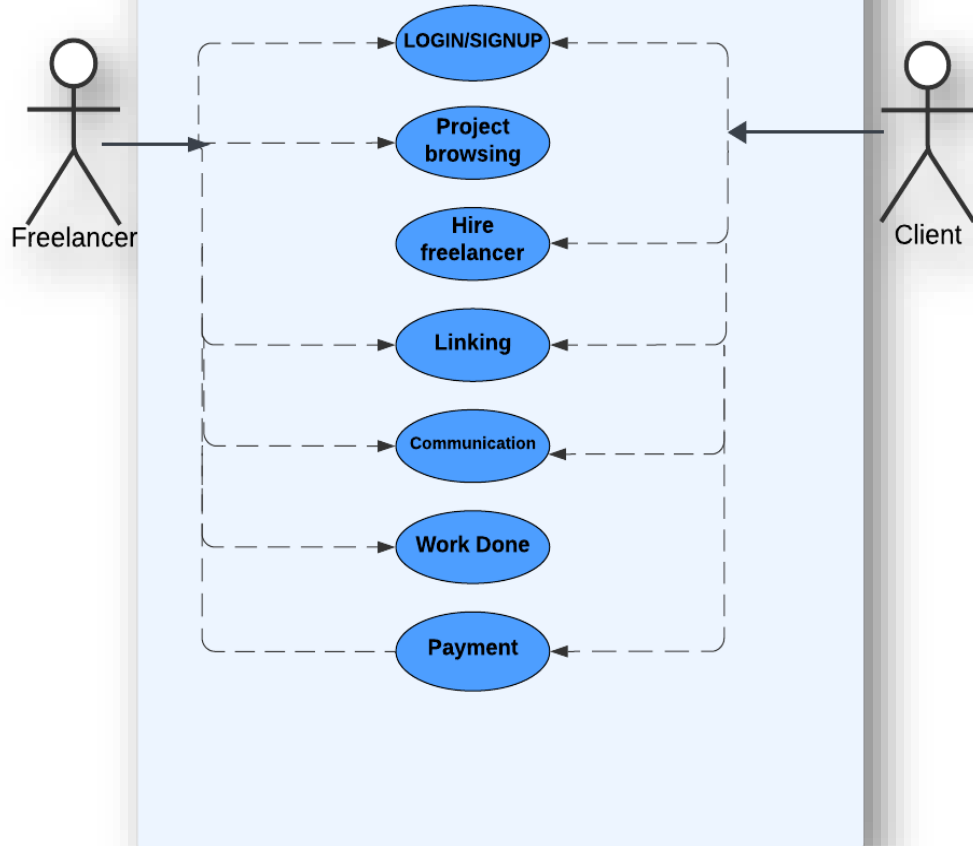

- Problem Statement ID – SIH1629
- Problem Statement Title-Freelancing Platform
- Theme- Smart Education
- PS Category- Software
- Team ID-7740
- Team Name -TechTitans_NR

➤ Prototype

- We offer **Review and Rating system** filters to make our website application more dynamic and user-friendly. In the future, we're excited to integrate **AI (Artificial Intelligence)** to enhance its features even further and to introduce **Multilingual support**.
- We prioritize **Secure Payment Gateways** to protect both gig workers and clients, making sure their assets and efforts are safe from misuse. We also offer a range of payment options, such as PayPal, foreign exchange, etc. In **ESCROW method**, to suit different needs.
- **Post projects** of the freelancer, **Project-based opportunities**, **live users of the website**, etc.

Freelancing Platform➤ Technologies

- We will be using Technologies like :

- PHP (version 8.3)
- HTML5
- CSS3

- JavaScript / Python

➤ Work Flow

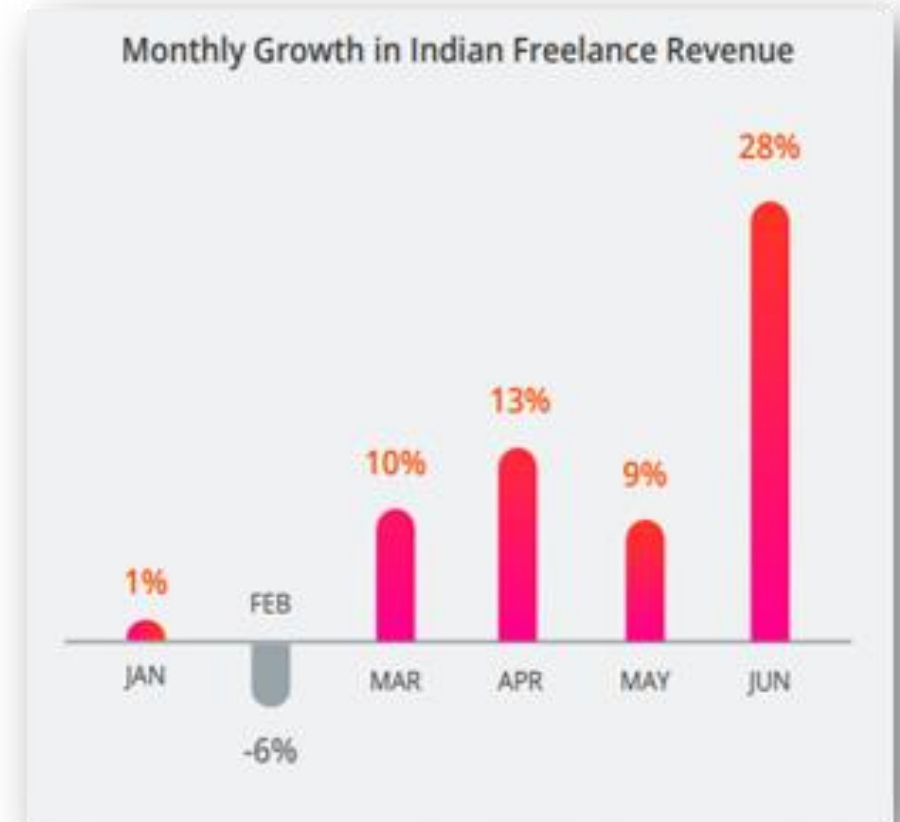

- **Client Posts a Job :** define requirements, budget, and timeline
- **Freelancers Apply :** Submitting proposals, pricing, and portfolios
- **Hiring Process :** Smart matching, interviews, and contract agreement
- **Project Execution :** Track progress, milestones, and feedback loops
- **Payment & Review :** Secure payments, feedback, and review system

➤ Challenges

- Difficulty finding reliable clients/freelancers
- Trust and payment issues
- Lack of proper project management tools
- Limited platform-specific support (e.g., legal, taxation)

➤ Solution

- Efficient and user-friendly platform for freelancers and clients
- **Secure payment gateways with Escrow**
- Integrated **project management tools**
- Custom **profiles, portfolios, and skill verifications**
- **Freelance marketplace with AI-based recommendation systems**
